How to Authenticate This Official PDF Transcript

This official transcript has been digitally signed and therefore contains special characteristics. This document will reveal a digital certificate that has been applied to the transcript, and for optimal results, we recommend that this document is viewed with the latest version of Adobe® Acrobat or Adobe® Reader. This digital certificate will appear in a pop-up screen or status bar on the document, display a blue ribbon, and declare that the document was certified by Parchment, with a valid certificate issued by GlobalSign CA for Adobe®. This document certification can be validated by clicking on the Signature Properties of the document.

The Blue Ribbon Symbol: The blue ribbon is your assurance that the digital certificate is valid, the document is authentic, and the contents of the transcript have not been altered.

Invalid: If the transcript does not display a valid certification and signature message, reject this transcript immediately. An invalid digital certificate display means either the digital signature is not authentic, or the document has been altered. The digital signature can also be revoked by the transcript office if there is cause, and digital signatures can expire. A document with an invalid digital signature display should be rejected.

Author Unknown: Lastly, one other possible message, Author Unknown, can have two possible meanings: The certificate is a self-signed certificate or has been issued by an unknown or untrusted certificate authority and therefore has not been trusted, or the revocation check could not complete. If you receive this message make sure you are properly connected to the internet. If you have a connection and you still cannot validate the digital certificate on-line, reject this document.

The current version of Adobe® Reader is free of charge and available for immediate download at <http://www.adobe.com>.

Please save this PDF immediately after downloading, as access to this transcript will expire within 21 days of the initial email or after 3 downloads, whichever occurs first.

Grade Point Average: Grade points earned for a course are multiplied by the number of semester hours to produce honor points. For example, receiving an "A," which is assigned four grade points, in a three-semester-hour course would produce 12 honor points. The grade point average (GPA) is obtained by dividing the total honor points by the total number of semester hours graded A+, A, A-, B+, B, B-, C+, C, D, E, EN, EU, or XE. Other grades do not carry grade points. Semester GPA is based on semester net hours. Cumulative GPA is based on total net hours. Note: Although the plus/minus scale includes a grade of A+ with a value of 4.33, the cumulative GPA is capped at 4.00, except for Law students. Questions about the grade scales may be referred to University Registrar Services at (480) 965-3124.

Repeating Courses: An undergraduate course taken at ASU may be repeated for credit if the grade of X, D, E, EN, EU, XE or W was received. Undergraduate courses in which grades of D, E, EN, EU, or XE are received may be repeated once. Prior to Fall 2007 grades marked with @ are included in the computation of the cumulative GPA. For additional policy information on undergraduate classes being repeated for credit, see <http://students.asu.edu/grades>
